

Vintage Computer Festival East 8.0

May 5-6, 2012, InfoAge Science Center, Wall, N.J.

Tix at door: \$10/day, \$15/weekend, kids FREE

Sat.: 9:30am-7:00pm Sun: 9:30am-5:30pm

Morning schedule: Lectures, workshops

Six lectures! Seven technical workshops!

Afternoon schedule: Hands-on exhibit hall

Dozens of live demonstrations of computers, peripherals, software, and more, from the 1960s, 1970s, and 1980s – join us as these technology relics come back to life!

Sat. keynote (12:30pm): Dr. Thomas Kurtz

Co-inventor of BASIC programming language

Sun. keynote (12:30pm): Daniel Kottke

College friend of Steve Jobs / Apple II, III, Mac engineer

And: book sale, consignment, food, prizes, museum tours
(computers, military electronics, radio/TV, shipwrecks, and more)
